CIA IMAGERY ANALYSIS DIVISION

KUNOVICE AIRFRAME PLANT

The Kunovice Airframe Plant is located at 49 02 10N - 17 26 16E, approximately two miles south of Uherske Hradiste, Czechoslovakia (See Figure I). Plant facilities consist primarily of a large hangar/assembly building (Item 1, Figure 3), three machine shops (Items 4 and 6), six hangar/workshops (Items 2, 3 and 8) and other small shops, storage and support buildings. The complex is serviced by a rail-spur and a 6540' x 100' concrete runway.

K1 When last observed in [] (See Figure 2), the Kunovice Airframe Plant contained approximately 763,450 square feet of floorspace. More than seventy-five per cent of this total (532,325 square feet) was devoted to production facilities. A more detailed listing of the functions, dimensions and floorspace of the plant facilities is shown on Table I.

All measurements were made by the NPIC Technical Intelligence Division and are considered to be accurate within ± 5 feet or ± 10 per cent, whichever is greater.
